

Castino Care & Material Guide 100% Cashmere

Welcome to Castino - and thank you for choosing handmade quality. Your item has been crafted with care to be soft, safe, and long-lasting. Below you'll find all the information you need to keep it looking beautiful.

100% Cashmere

Pure cashmere is one of the softest, most luxurious natural fibers in the world. It's lightweight, incredibly warm, and delicate — and with the right care, it will stay beautiful for many years.

Care Instructions

- Hand wash in **cold water only** — warm or hot water will shrink cashmere.
- Use a **gentle cashmere or wool detergent** (baby shampoo also works).
- Do **not** rub, twist, or wring. Gently press out the water.
- Lay flat on a clean towel to **dry naturally**, reshaping while damp.
- Keep away from direct sun and heat sources.
- Do **not** tumble dry.
- If ironing is needed, use **very low heat** with a cloth placed over the cashmere.
- For best long-term care, **dry cleaning** is recommended occasionally.

Material Benefits

- Ultra soft and luxurious feel
- Lightweight but extremely warm
- Breathable and gentle on skin
- Naturally odor-resistant
- Long-lasting with proper care

Important Notes for 100% Cashmere

- Pilling (small fuzz balls) is normal — remove gently with a **cashmere comb**.
- Always **fold** cashmere; never hang it (hanging stretches the fibers).
- Store in a cool, dry place with **cedar** or **lavender** to protect from moths.
- Allow cashmere to “rest” — avoid wearing the same piece every day.
